Re: Proposed initial public offering of equity shares of face value of Rs.2/- each (the “Equity Shares” and such offering, the “Offer”) of ‘Jain Resource Recycling Limited’ (the “Company”)

I, the undersigned, confirm that, I am duly registered as a Chartered Engineer with the Engineering Council UK bearing registration number 572600 (Certificate of registration enclosed herewith as **Annexure I**), and that I am authorized and competent to issue this certificate. Further, I confirm that the aforesaid registration is valid as on date hereof, and as such, I am duly qualified to issue this certification.

Pursuant to the engagement letter dated 12-Mar-2025, I have been requested by the management of Jain Ikon Global Ventures FZC, having its office at A2-027, A2-028 & A2-029, SAIF Free Zone Sharjah, UAE, to verify and certify the details of the production capacity of Jain Ikon Global Ventures FZC (hereinafter referred as “**Subsidiary**”).

In this regard, I have conducted an independent review, examined, and verified, the Manufacturing Facility, ascertained the lease records, products manufactured, physically inspected the plant and machinery, and other equipment situated in the Manufacturing Facility, reviewed the relevant records including records for production and approvals as may be required under applicable laws made to any government or regulatory authorities along with the records and documents of the Subsidiary including those which need to be, and are, maintained at the Manufacturing Facility (Refer **Annexure IV** and **Annexure V** for list of documents/records references). The brief of procedures conducted by us towards the issuance of this certificate are as mentioned below:

1. Physical inspection of the Manufacturing Facility of the Subsidiary on 15-03-2025 and on 02-09-2025. The Company for its operations had taken on lease three warehouses. Out of the three warehouses, two warehouses, A2 027 and A2 029 were surrendered on 17-04-2025. The process for the surrender of the third warehouse, A2 028, is in progress as on the date of this certificate. Summary of the details are provided in **Annexure IV** and **Annexure VIII**.
2. Based on the information and review of the documents produced to us by the Company, last invoices for sale of metal 19-03-2025 and subsequent invoice for sale of equipment on 03-04-2025, 22-04-2025 and 20-05-2025 (relevant invoices annexed as Annexure IX), we confirm that the refining operations have been ceased on 17-04-2025 and before surrendering, the equipment that were kept in warehouses A2 027 and A2 029 have been moved out of said warehouses. The company retained A2 028 warehouse for completing closure formalities.
3. Inspection, examination, verification of various equipment, systems and modules and respective records with respect to the manufacturing details, QA/QC Certificates, log-sheets as on date of certification of the Manufacturing Facility of the Subsidiary.
4. Capacity utilization: Reviewed the installed plant and machinery and the relevant documents regarding the said plant and machinery to certify the installed capacity and verified the actual production and capacity utilization details from their respective accounting records, internal records or such other documents maintained at the Manufacturing Facility or at the Subsidiary's offices as we deemed appropriate and relevant (as enclosed in **Annexure V**).
5. Recording through photographs of the list equipment (as enclosed in **Annexure VI**) at the actual facility as on date of certification for facilities of the Subsidiary.
6. Such other documents, details, agreements and records of the Subsidiary as are deemed relevant and appropriate.
7. Reviewed Plant and equipment related documents, physical verification and witnessed part of operation as on date of certification towards the facility of the Subsidiary.

I have enclosed the procedures followed by us for the certification of the Manufacturing Facility related data of the Subsidiary in **Annexure IV** and **Annexure VII**.

Based on my independent review, examination and verification of the Manufacturing Facility, physical inspection of the plant and machinery, and other equipment, review and verification of the relevant records including records for production and approvals/submissions made to governmental or regulatory authorities and the information and explanations provided to me and on our review of the records and documents of the Subsidiary, and the information and explanations provided to us, I hereby certify and confirm the following

1. Details of various equipment being utilized by the Subsidiary; Refer **Annexure IV** – List of equipment
2. Capacity Utilization: Reviewed the installed machinery to certify the installed capacity and verified the actual production and capacity utilization from their respective accounting records, internal records or other documents as we deemed suitable;
3. The Tenancy agreements executed by the Subsidiary and also visited the Manufacturing Facility and warehouse at A2-027, A2-028 & A2-029, SAIF Free Zone Sharjah, UAE details of which is enclosed herewith as **Annexure IV**; and
4. Other documents, details, agreements and Subsidiary's records as appropriate for issuing this certificate, refer **Annexure II**

I confirm that the plant was set up on 19-08-2024, as per the documents, information and explanation provided to me and the operations had ceased on 17-04-2025, evidenced by the letter from the contractors dated 18-04-2025

attached as **Annexure VIII**.

I further confirm and certify that based on the information and explanations provided to us and on our review of the records and documents of the Subsidiary, during our physical inspection on 15-03-2025 and 02-09-2025, the aggregate installed capacity of the manufacturing unit at A2-027, A2-028 & A2-029, SAIF Free Zone Sharjah, UAE was 28 MTPA for the year ended March 31, 2025 and was Nil for the period from April 01, 2025 till July 31, 2025 cause the Subsidiary had ceased operations on 17-04-2025 (comprising of intermediate and final products) and percentage of capacity utilization of Gold Refinery as mentioned in the **Annexure III** is true and correct.

I represent that our execution, delivery and performance of this certificate has been duly authorised by all necessary actions (corporate or otherwise).

I further confirm that we are an independent entity with no direct or indirect interest in the Company or Subsidiary except for provision of professional services in the ordinary course of my profession. Further, I am not in any way connected with or related to the Company / Subsidiary, shareholders, officers, its promoters, promoter group, its key managerial personnel, its senior managerial personnel, employees, agents, representatives of the Company / Subsidiary, its directors, its group companies or directors of its group companies, the BRLMs or their affiliates and that no such party is a 'related party' in relation to me within the meaning of the term under the Companies Act, 2013, as amended ("**Companies Act**"), or the applicable accounting standards under applicable law, and that no circumstances subsist that would materially impact my confirmations and findings as expressed in this certificate.

I hereby consent to, and have no objection to, the inclusion of my name, Sama Srinivas and this report or any extract thereof in the red herring prospectus ("**RHP**") to be filed with the Securities and Exchange Board of India ("**SEBI**") and the stock exchanges where the equity shares of the Company are proposed to be listed (the "**Stock Exchanges**"), and the prospectus ("**Prospectus**") to be filed with Registrar of Companies, Tamil Nadu & Andaman at Chennai, the SEBI and the Stock Exchanges or any other document to be issued or filed in relation to the proposed initial public offering of equity shares by the Company ("**Offer**"), including in any corporate or investor presentation made by or behalf of the Company (DRHP, RHP, Prospectus and other offer related documents to be collectively referred as "**Materials**"). I further consent to be named as an expert in the DRHP, the RHP and the Prospectus, as defined under the provisions of the Companies Act, 2013 and the rules framed thereunder.

I agree to keep the information regarding the Offer strictly confidential.

I consent to be named as an "expert" as defined under the provisions of the Companies Act, 2013, as amended and the rules framed thereunder, in the Materials. Further, I confirm that I am not, and have not been, engaged or interested in the formation or promotion of the management of the Company / Subsidiary. The following details with respect to me may be disclosed in the Materials:

Name: Sama Srinivas

Address:

Flat -902, Bin Suweilem Bldg
Neat Grand hotel, Damascus street
Ghusais, Dubai, UAE

Contact Details: +971 50 452 9935

E-mail: sama224@gmail.com

Membership No. 572600

This report may be relied upon by the Company, the BRLMs and the legal counsels to the Offer for disclosures in the Materials, and for clarification/ submissions issued to any regulatory authority and/or for the records to be maintained by the BRLMs in relation to the Offer, including (but not limited to) the SEBI, the RoC and the Stock Exchanges where the equity shares of the Company are proposed to be listed. I consent to this letter being disclosed by the BRLMs, if required (i) by reason of any law, regulation, order of a court, regulator, quasi-judicial authority, or by any competent regulatory authority; or (ii) in seeking to establish defence in connection with, or to avoid, any actual, potential, or threatened legal, arbitral, regulatory proceedings, investigations or such other enquiries where BRLMs in their sole opinion deem appropriate to disclose this certificate to establish defence; or (iii) to their syndicate members, underwriters, auditors of the BRLMs as they deem fit.

Location	: Laboratory-Instrument Room		

ENVIRONMENTAL CONDITIONS DURING CALIBRATION

Average Ambient Temperature : 24.8 °C

CALIBRATION METHOD

The above equipment has been calibrated in accordance with DM-DCLD-SOP-MEL-IMM02 (based on EURAMET cg-18 Standard).
Deviation of indication were measured against reference standard weights of compatible class.

TRACEABILITY

The measurements have been executed using standards for which the traceability of measurements to national or international standards, which realize the physical units of measurements (SI), has been demonstrated to Emirates International Accreditation Center (EIAC).
The EIAC is a signatory to the Mutual Recognition Arrangement with International Laboratory Accreditation Cooperation (ILAC)

The air density during calibration time was : 1.18 kg/m³

The reported expanded uncertainty is based on a standard uncertainty multiplied by a coverage factor k=2, providing a level of confidence of approximately 95%. The uncertainty evaluation has been carried out in accordance with international practice.

DEVIATION FROM STANDARD METHOD : None

REMARK (S) : Balance was calibrated from 1mg up to 3000mg as requested by the customer.

NOTE (S) : This certificate is issued in accordance with the laboratory accreditation requirements of Emirates International Accreditation Center.

This certificate may not be reproduced other than in full, unless permission for the publication of an approved extract has been obtained in writing from the director of DCLD.

It does not of itself impute to the subject of the calibration any attributes beyond those shown by the data contained herein.

This is a system generated and electronically approved calibration certificate by Manager of Metrology Labs Section and does not require any signature.

CRM calibration document	As per certificate having no. BND 4208 – JHPG995-01/45

भारतीय निर्देशक द्रव्य
INDIAN REFERENCE MATERIAL
(BharatiyaNirdeshakDravya, BND)

BND Certificate

BND®4208

HIGH PURITY GOLD-995

994.9 PPT ± 0.4 PPT

Certificate number: BND®4208-JHPG995-01/45

This BharatiyaNirdeshakDravya, BND®4208, an Indian Certified ReferenceMaterial of High Purity Gold is produced by Jalaan Reference Material Producer, a unit of Jalaan and Company, Delhi, India. It is intended to be used as a Gold reference standard for calibration of instruments such as x-ray fluorescence spectrometer (XRF), method validation (fire assay and other standard methods), and production of secondary reference standards. The purity of gold is determined by Fire Assay (primary gravimetric method) [1] traceable to SI Unit. The certified value is assigned by Jalaan and Company and further validated by CSIR-National Physical Laboratory, New Delhi, National Measurement Institute (NMI) of India. One unit of BND®4208 consists of 1 gold bar (~1 g) in a blistered sealed pack. The certified value of High Purity gold along with the associated expanded uncertainty was calculated at 95% confidence level with coverage factor $k = 2$, considering major sources of uncertainty, including measurement replication, possible heterogeneity, and stability factors according to ISO GUM Guide 100:2008 [2] and ISO Guide 35: 2017 [3] as given in Table 1.

Certified Value

MEASURAND/CONSTITUENT	CERTIFIED VALUE	EXPANDED UNCERTAINTY ($k=2$)
Gold	994.9 PPT	±0.4 PPT*

* PPT: parts per thousand (‰) by mass

Traceability: The BND®4208 is metrologically traceable to SI units through primary methods using high purity gold for determination of the purity of Gold and further validated by CSIR-National Physical Laboratory, New Delhi. All measurements have been carried out to establish traceability through an unbroken chain of comparisons, having stated measurement uncertainty.

Nature of Material: Non-hazardous

Homogeneity: Ten samples of BND®4208 were selected and homogeneity assessment was carried out within and between the samples as per ISO Guide 35:2017 [3].

Instruction for Storage, Usage and Precautions for Handling: The BND®4208 should be stored in a dry, cool, clean, and non-corrosive environment in a tightly blistered sealed pack and should be protected from light. After use the pack should be sealed tightly again and stored at $25 \pm 5^\circ\text{C}$. Gloves, masks, goggles and other general precautionary measures should be used while handling the BND®4208. It is recommended to clean the surface of BND®4208 before using it by placing it in the warm dilute hydrochloric acid (50% v/v) for 10 minutes, followed by washing it with distilled water. The required sample portion should be taken for analysis after cutting with clean scissors/cutter. Users should take precautions to prevent environmental contamination during the use or storage of BND®4208.

Expiration of Certification: The certification of BND®4208 for batch No. JHPG995-01 is valid, within the measurement uncertainty specified, until **December 16, 2025** provided the BND is handled and stored in accordance with the instructions given in this certificate. This certification is nullified if the BND is damaged, contaminated or otherwise modified.

Maintenance of Certification: Jalan Reference Material Producer will monitor the certified value of BND[®]4208 over the period of its certification. If a substantial technical change occurs that affects the certification before the expiration of this certificate, Jalan Reference Material Producer will notify the purchaser.

Disclaimer: Development of BND[®]4208 has been carried out at Jalan Reference Material, a unit of Jalan and Company as per ISO 17034:2016[4] and testing is performed with compliance as per ISO/IEC 17025:2017[5]. The certification of the BND[®]4208 is also complying the requirements of ISO Guide 31:2015[6]. However, it assumes no liability with respect to or for damages resulting from, the misuse of any information, material, apparatus, method, or process disclosed in this certificate or any warranties with respect to material safety. The certified values of the parameters given in this certificate are the best estimates of true value within the stated uncertainties.

Manufacturing Facility : A2-027, A2-028 & A2-029, Sharjah Saif Free Zone UAE.																
Refined Gold Ingots	N.A.	N.A.	N.A.	N.A.	36.5	28	0.458	1.64%	-	-	-	-	-	-	-	-

Notes –

(1) Installed capacity represents the installed capacity as of the date mentioned in the table above and the available capacity has been calculated based on the average of daily available capacity for the relevant period and other factors like continuity of supply chain of raw material. The installed capacity and the available capacity are based on various assumptions and estimates outlined in the table above, (1. The installed equipment have maximum capacity to process 100 KGs at once through Aqua Regia plant measured as mentioned below -2 tilted tumblers of processing capacity of 50 kg each totalling to 100 kgs. There are 2 back up units that makes total installed capacity of 125 KGs - One vertical processing unit of 15 kgs capacity, One silver processing unit that can be used to process up to 10 kg gold. Aqua regia is 4-6 hours of process. 2. For smelting, plant has - 2 x 50 kg

of induction furnace that can melt upto 100 kg in 1 hour; 1 x 20 kg furnace induction furnace that can melt upto 20 kg in 1 hour; 5 x 1 kg furnace for final kilo bar product. This unit can produce 80-100 kilo bar in 2.5-3 hrs as it can produce 1 kilo bar in average 7-8 min. 3. .Plant has 2 high-capacity precision weighing scale of 32 kg capacity)

(2) Actual production represents quantum of production in the relevant period. (28MTPA, Considering supply chain challenges and weekends and festival holidays, plant is considered to be operational for a period of 280 days and 12 hours a day running single shift to process 100 kg of gold.)

(3) Capacity utilization has been calculated on the basis of actual production in the relevant period divided by the available capacity during such period. (.458MTPA, Since the commencement of plant from 19th August 2024 to March 31 2025. Since production commenced on 19th Aug 2024, hence there is no production data for last two Fiscal years.)

(4) Refined Gold Ingots, Gold coins and gold bars are manufactured by the company.

(5) Installed capacity is in accordance with the local laws and regulations, bye-laws as may be required.

** There were no refining operations carried out by the Subsidiary (Jain Ikon Global Ventures FZC) for the period 1st April 2025 to 31st July 2025 since the Company had ceased its refining operations on April 17, 2025.*

ANNEXURE V

Below mentioned documents were reviewed to ensure equipment claimed by suppliers are imported to the facility of Jain Ikon Global Ventures FZC

1. Bill of material from supplier and the list of equipments as per the table below
2. Packing list
3. Physical verification of equipment against above documents in plant
4. First production invoice to validate start date of production
5. Verified lease agreement and utility bills for physical location verification

Equipment verification	Particulars
Refining plant invoices, packing list and custom clearance document	Verified Commercial Invoice and Packing List No – RI-159/24-25 Dt 08-May-2024, Sharjah Custom Clearance for Freezone no: 1-3-60-8-24-35280 Invoice and Packing List No – RI-179/24-25 and RI-180/24-25 Dt 04-May-2024, Sharjah Custom Clearance for Freezone no: 1-3-60-8-24-35275
Smelting furnace invoices, packing list and custom clearance document	Commercial Invoice and Packing List No – EX-0605202401 Dt 06-May-2024, Sharjah Custom Clearance for Freezone no: 1-3-60-8-24-36563
Laboratory equipment invoices, packing list and custom clearance document	Commercial Invoice and Packing List No – 005/MY/2024-2025 Dt 03-May-2024, Sharjah Custom Clearance for Freezone no: 1-3-60-8-24-36593
Misc equipment bought through JRR	Commercial Invoice and Packing List No – 11/2425/IN200107 Dt 30-May-2024, Sharjah Custom Clearance for Freezone no: 1-3-60-8-24-46229
Statutory Requirement Document	Particulars
Certificate of Incorporation	As per Certificate no. 150400 dated 26.12.2023 (Annexure II)
Trade license	As per License no. 24198 dated 26.12.2023 (Annexure II)
Facility Completion Certificate	B EST – 1- 2024 – 17255115 dated 13.12.2025 (Annexure II)

Annexure VI

The following table lays down step by step process involved in our gold refining operations:

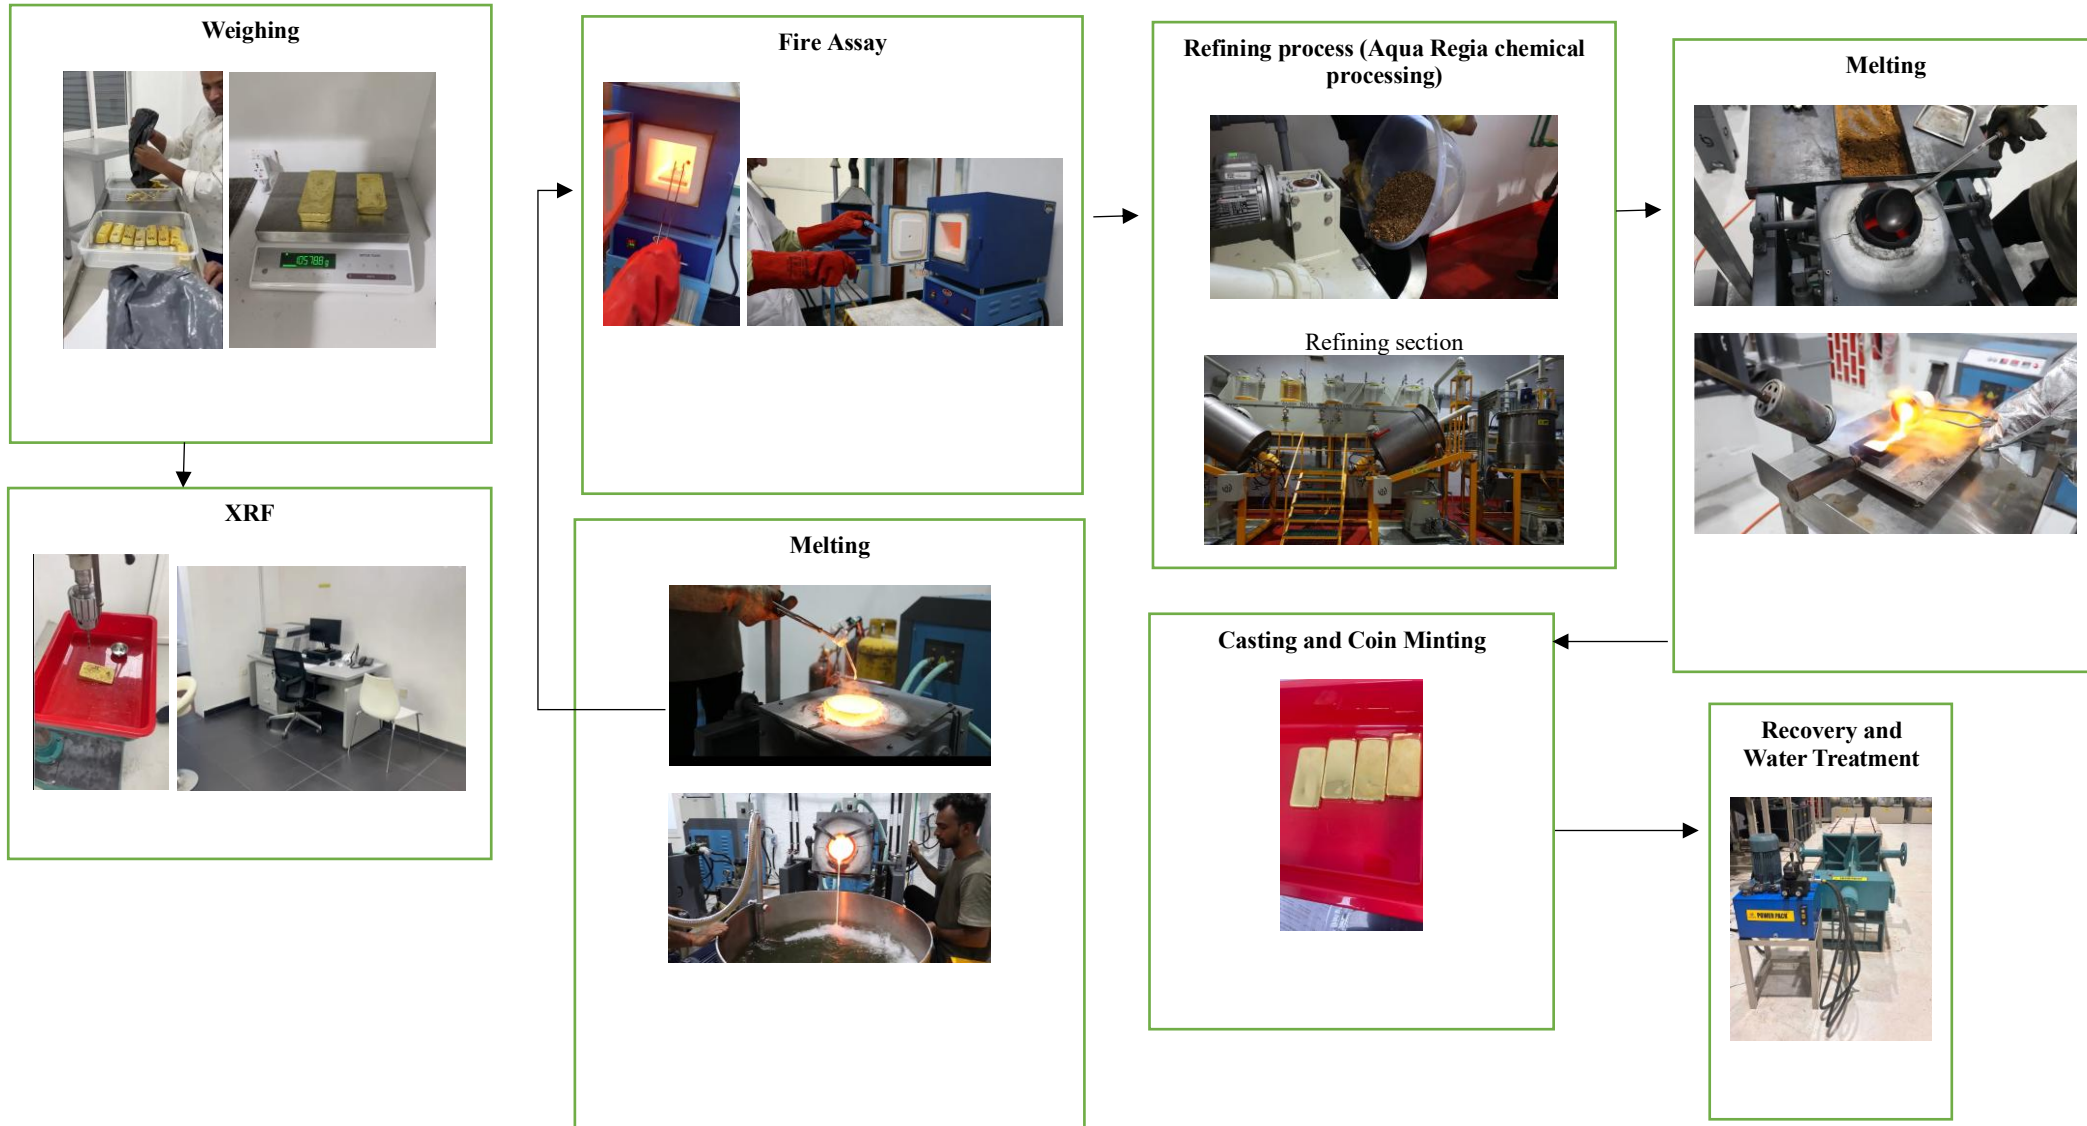

Steps		Details
Steps -1	Weighing	The process begins with weight verification of each gold dorebar against the standard reference weight provided in the invoices of gold dorebar.
Steps -2	XRF	Subsequently, initial purity verification is carried out by drilling each gold dorebar with XRF machine for taking samples.
Steps -3	Melting	After initial verification, gold dorebars are melted in the melting furnace.
Steps -4	Fire Assay	From the melted gold dorebars, pin or button samples of molten gold is taken for purity verification that is conducted by lab-fire assay process.
Steps -5	Refining (Leaching of Gold and silver)	<p>After the lab fire-assay verification, the molten gold is poured in rotating water to make flakes. Such flakes are then charged in reactor for Aqua regia process and HNO₃ and HCl are added as per requirement. By this process gold gets dissolved in the solution and the silver present in gold dorebars gets converted into silver chloride.</p> <p>The aqua regia solution is then filtered through filter trolley into PPT reactor for extracting gold from the solution. Further, sodium metabi sulphite (SMBS) is added to the solution for facilitating gold precipitation pursuant to which gold is collected in powder form.</p> <p>For separating silver, caustic and dextrose is added in the solution which converts silver chloride into cemented silver⁽¹⁾.</p>
Steps -6	Melting	The gold powder collected in the refining process is melted and samples are taken for purity check. Further, as per requirement, silver is added for adjusting the purity levels and again pin or button samples are taken from the molten gold powder and sent to lab for analysis of purity of gold.
Steps -7	Casting and Coin Minting	After purity adjustment the molten gold is casted into kilo bars or mint coin as per requirement followed by stamping, numbering and packing for getting it ready for dispatch.
Steps -8	Recovery and Water Treatment	Recovery is done from all the machines and solutions by adding chemicals and solution treatment is done to maintain the PH level (6.5-7.5) of solution in the neutralization unit.

⁽¹⁾ The cemented silver, received as a by-product in the gold refining process is separately sold by JIGV.

Annexure VII

1. Conducted detailed discussion with the plant head to understand the process, installed equipment and capacity
2. Requested all relevant documents (**Annexure I**, **Annexure IV** and **Annexure V**) for equipment in the plant for example Bill of material, packing list, first invoice of metal receiving and metal sold along with custom clearance etc. also requested for lease agreement and utility bill for each warehouse/factory shed on leased
3. Visited the location as per address on the lease agreement.
4. Verified equipment against bill of material / packing list. Also, verified invoices (Refer **Annexure V**)
5. Understood the entire value chain of supply of raw material and sales side to arrive on number of days in a year plant is operational to arrive on realistic annual capacity as described in **Annexure III**.

 **لام مصطفى لمقاولات البناء ذ.م.م.**
GHULAM MUSTAFA BUILDING CONTRACTING L.L.C
We believe the price to be paid is the reflection of your expectations

Date: 18-04-2025

To,

Jain Ikon Global Ventures FZC
A2-028, SAIF Zone
Sharjah, UAE

Subject: Confirmation of Surrender of Warehouses A2-027 and A2-029 to SAIF Zone

Dear Sir/Madam,

We are writing to formally confirm that the **reinstate work and handover** of the warehouses **A2-027 and A2-029**, located within SAIF Zone, awarded to us by Jain Ikon Global Ventures FZC, have been **successfully completed and surrendered to SAIF Zone on 17th April 2025**.

All works were carried out in accordance with the scope provided, and the final handover was acknowledged by the relevant SAIF Zone authority without any pending compliance issues.

Please note that **Ghulam Mustafa Building Contracting L.L.C is an authorized contractor registered with SAIF Zone to carry out all types of civil, electrical, and plumbing works within the zone.**

Should you require any further documentation or clarification, please feel free to contact us.

Thank you for your continued trust and cooperation.

Sincerely,

For Ghulam Mustafa Building Contracting L.L.C
Qasim Mustafa
